## CRAFTED TO PERFECTION

This festive season, transform your personal space with luxurious customisable furnishings from homegrown, internationally recognised manufacturing powerhouse ANCA. Crafted using state-of-the-art technology and inventive production processes, the brand's bespoke offerings are rare expressions of elevated living

After what's been an unimaginably challenging year, it's safe to say that we're all looking forward to 2021 with a sense of renewed hope and enthusiasm. And what better way to usher in the New Year than by giving your personal space a lovely makeover?

This New Year, bring home the ANCA advantage to reinvent your living space. Established in 1985, ANCA is a Delhi-based globally recognised FFE Manufacturing Company that offers up a selection of bespoke furnishings. Whether it's exquisitely designed furniture or superior quality fixtures, the manufacturing powerhouse combines cutting-edge technologies with innovative production

methods (that surpass those of factories in Europe) to offer stylish design solutions are an absolute treat for Indian designers and architects. In keeping with its philosophy of exclusivity, ANCA launches just two collections a year and also provides custom furniture manufacturing services. Each offering from the brand is designed using inventive materials and flaunts the finest craftsmanship, all the while maintaining an uncompromising standard of quality and excellence.

Take, for example, ANCA's latest contemporary living collection—Libre. Oozing a modern appeal, Libre is all about a liberation from tradition and a conventional lifestyle,

with the focus being on offering a relaxed 'less is more' aesthetic that makes an elegant statement. Here, unusual materials meet a palette comprising muted shades to offer a living experience that is at once luxurious yet intimate. Think a colour scheme featuring ash grey veneers that collide with deep tan leather. Adding to the charm is the use of raw and petrified wood with leather, which lends a sense of warmth. To keep things fresh and infuse a hint of character, ANCA has, with Libre, experimented with a range of new materials including transparent coloured acrylic with wood inserts, molten glass and bronze.

With a focus on walls versus dressed-up floorings and ceilings and its use of edgy materials and a refreshing colour palette, Libre's offerings promise to transform not just your space but your mood as well.
